

design anthology

INTERIORS / ART / ARCHITECTURE / TRAVEL

Design Anthology is Asia's only luxury design magazine. Our editorial concentrates on high-quality, informed, timeless designs - not trends or fads - and is aimed at a sophisticated, well-travelled and discerning audience. Each issue features quality writing by an international team about the built environment - from macro to micro - with subjects ranging from urban planning and architecture to interior design, furniture, art and a travel section aimed at the creative class. Each of our features has a focus on Asia - either projects in the region, or designed by Asia-based designers working internationally. Published quarterly, Design Anthology is a celebration of the burgeoning creative scene in Asia.
