- Project 1: HeWi Store (Bangkok)
-

1. HEWI STORE

Project Overview

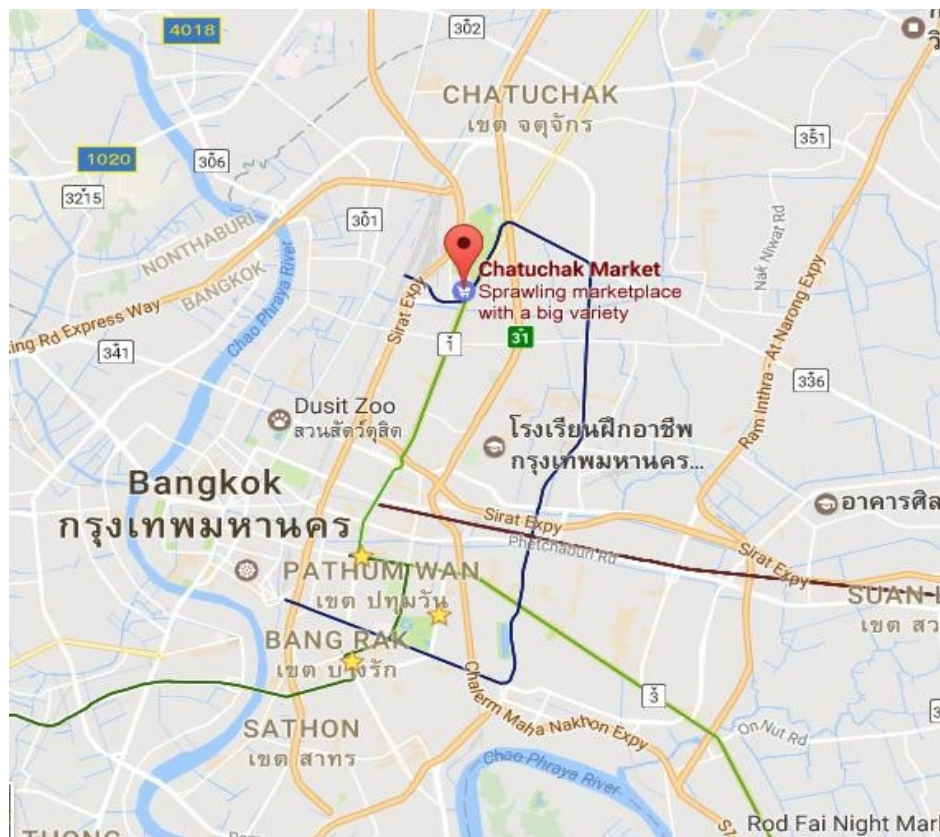

HeWi designer furniture store was opened by Hendricus Wichers from Holland. Favoring minimalism, black-and-white color schemes and sleek lines, the store carries an array of contemporary, made-to-order chairs, tables, outdoor furnishings and other home décor products. While Hendricus promotes modern Dutch designer brands such as Lonc, the small shop also features his own brand HeWi, which offers resort furniture and novel home designs. He also works with young, emerging talent to co-create new products.

The store is becoming increasingly popular among local interior designers, architects, store outfitters and restaurant owners.
