

To all ADF members, we would like to take this opportunity to extend our heartfelt gratitude and appreciation for your continued support of our activities.

Aoyama Design Forum (ADF) recently signed a business tie-up contract with the Association of Siamese Architects under Royal Patronage(ASA) in Thailand to interact with architects and designers of both parties. As a result of this cooperation, ADF will encourage opportunities to train Japanese and Thai architects and designers, improve social status of them, and interact with each other. From now on, ADF will continue to provide a higher quality of design information than ever before.

Established in 1934, ASA has been committed to fostering Thai architects and to setting standards and rules on the architectural profession, and has also partnered with domestic and foreign organizations and government institutions.
