April 2020

CONTENTS

* Budri Showroom

1. Budri Showroom

Project Overview

Budri, historic brand in the processing of marble and artistic inlay, has renewed their showroom which has been opened one year ago, located in the heart of Milan, on Foro Buonaparte St.no.60. The showroom has been projected by Studio Patricia Urquiola, a longstanding and prolific collaboration with Budri. The 350 m² space is spread over three floors with a specific display arrangement: the ground floor hosts the design collections, namely surfaces and furnishing accessories. In addition, an elegant lounge area looks onto the palazzo's Liberty style courtyard. At the basement floor, we can see the new collections. Not only a showroom, but a meeting place and dialogue dedicated to architects, designers and design admirers, where creative ideas take shape transforming themselves into elegant solutions, color and material combinations, for every type of project.
